Table des patronymes cités dans les articles parus dans les périodiques publiés par le CHAPG de 1990 à 2006 inclus.

La liste des patronymes est traitée par ordre alphabétique, particule éventuelle incluse et compte non tenu des espaces ni des apostrophes. Comme dit plus haut, il se peut cependant que la particule ne soit pas mentionnée dans le texte et que le patronyme soit alors classé comme s'il ne comportait pas de particule.

Les références sont présentées sous forme de groupes de six à sept chiffres. Les deux premiers chiffres indiquent le millésime (00 pour l'an 2000). Les deux chiffres suivants indiquent le numéro du périodique (01, 02 ...etc) ou le premier numéro s'il s'agit de numéros doubles (ex. 02 pour le numéro 2-3 de 2002). Les deux ou trois derniers chiffres correspondent au numéro de page (00 pour les pages d'encart). En outre, les pages consécutives sont séparées par un tiret (ex. 050119-21= 2005, fascicule 1, pages 19 à 21).

Enfin, pour permettre l'introduction des trois recueils à leur place chronologique normale, il leur a été donné des références dont les quatre premiers chiffres sont 9000 pour le N°1, 9100 pour le N°2 et 9200 pour le N°3.
